

FRAPP

The acronym FRAPP is Float, Regional anesthesia, Acute Pain, PACU.

Version 2/24/2014; Authors: Malone, Nohr, Pisini

<input type="checkbox"/>	1. Review schedule and email (<i>Candidates for Regional Block, Epidural and Post op Pain Risk</i>) from the night before for potential candidates.
<input type="checkbox"/>	2. Help coordinate APMS and regional block patient flow through ASU.
<input type="checkbox"/>	3. Be primary PACU POC for the PACU RN. <ul style="list-style-type: none"> You are a resource. (Other resources are the attending and FW) If the PACU RN is unable to get other staff to respond to issues, you would either take care of it or mediate the issue with the appropriate staff. Help with challenging PACU patients. Help coordinate patient flow to minimize PACU holds.
<input type="checkbox"/>	4. Supervise/teach blocks with resident. <ul style="list-style-type: none"> Attest for supervision in EPIC. Perform blocks if resident unavailable.
<input type="checkbox"/>	4. Coordinate thoracic epidurals with room attending and block resident/OR resident. <ul style="list-style-type: none"> Perform or supervise/teach resident with thoracic epidurals if available.
<input type="checkbox"/>	5. APMS rounds <ul style="list-style-type: none"> Assist with APMS rounds Include RB and Pain resident for APMS education Perform procedure pain consult request (i.e. tunneled epidural for rib fracture, spinal lumbar drain) Help with pharmacologic pain consult requests. Be primary resource for APMS midlevel. If rounding on your own, recommend doing this in "batches" as you have a high probability of being called away from rounds several times. Document and route your notes in EPIC as appropriate.
<input type="checkbox"/>	6. Review next days schedule to identify potential regional blocks and/or epidurals. Communicate potential challenges to next day's staff.
<input type="checkbox"/>	7. IF all of these assignments allow, be available as a potential recourse for the FW. <ul style="list-style-type: none"> FRAPP to assume the APMS coverage at 1600 until the night float resident arrives at 1730. The assignments tasked by the FW would be low level commitment that are of short duration. May help with breaks/lunches. (<i>Not to facilitate the early out list. May help relieve non-call staff</i>)

	<ul style="list-style-type: none">• IF the schedule allows, pick up room assignments.

NOTE: This is not a comprehensive end all list. There are situations that will arise that will occasionally pull us off task. We need to be flexible and understanding when this happens. We should document the circumstances so that we can give meaningful feedback to FW meetings. Please feel free to send these comments to OWN or JVP and they will compile them for review at FW meetings.
